AND

All the staff and volunteers.

EVENT DIRECTOR contact : Cédric AMAND, 3 Rue Centrale, 06440 Peille, 0627879055, cedric.amand@hotmail.fr

ORGANISATION TEAM : Coralie Rospert

THIS AGREEMENT MAY EVOLVE AND ADAPT UNTIL THE END OF EVENT.

STORY OF THE MERCANTOURMAN :

The event was born in 2020 from a personal challenge post COVID-19 launched by Cédric Amand : To realize a Triathlon Adventure as a Grande Traversée du Département des Alpes Maritimes from the Mediterranean sea and continuing through the Mercantour National Park, the Ubaye mountains to reach Embrun. Twenty Adventurer have joined him for this first Triathletic Challenge. They acted as pioneers for this extraordinary event that crossed snow and negative temperatures that forced route adaptations. But that's the adventure: accept Mother Nature and the unexpected. The story goes on and you will contribute to write it.

OPEN LETTER FROM CÉDRIC AMAND, FOUNDER OF THE CHALLENGE ALSO AVAILABLE ON THE OFFICIAL MERCANTOURMAN WEBSITE :

“Le **MercantourMan XTREM Triathlon** evolved. We want to keep our DNA: the mountains. But also our values: those of adventure, autonomy, discovery, freedom, challenge and surpassing oneself. We also want to integrate a new one: that of accessibility!

It is for this reason that the **Initial Full crossing** that you know and which brings the Mediterranean Triathletes to reach Embrun via the Mercantour and Ubaye mountains on road or gravel will continue but it will take place every 4 years. This Triathlon is magical and legendary, it must continue to live. **Please note that the next edition of the initial Full Crossing will take place in 2027.**

For now and for the years 2024-25-26, we would like to continue to familiarize you with our **MercantourMan XTREM** in the mountains on somewhat less demanding routes but above all which will not require staff and which will keep our DNA and our values. **A Half format** therefore appears in order to make this notion of xtrem triathlon in total autonomy even more accessible. The objective is to familiarize you with our concept so that you discover the greater distance the following year and why not the Full Crossing in 2027.

Our vision is that of travel, discovery and physical surpassing. We were the first in Europe to offer you a Gravel Triathlon and we want to continue this path. You will have to surpass yourself to complete your challenge and it is by brandishing your Rudius (wooden sword), symbol of freedom that you will assert your status as finisher. Incidentally a beer in the other hand.

We will leave it to others to make the Triathlon a mass spectacle. We will continue to limit registrations. I hope that the participants of the MercantourMan XTREM share our simple values and that they join us in this noble practice of the independent sporting challenge in nature. Welcome everyone!

DEFINITION OF THE MERCANTOURMAN XTREM TRIATHLON :

The Mercantourman [edition n°5] is organized exclusively for its community of cyclists, ultra-cyclists and triathletes. The ultra-cycling courses and triathlon offered by Team Baroudeur are among the most demanding in Europe.

Only members of the organizing association and therefore of the Baroudeur community are authorized to start one of the events we offer.

This is why, if your application is selected to participate in an edition, you will automatically become a member of the Baroudeur Team association and club for the current year.

In this unique setting, you will be able to participate in complete autonomy, without assistance and under your own responsibility in the Mercantourman offered by your Baroudeur Team club.

The MercantourMan The MercantourMan universe is the mountain.

The goal is to gain your freedom, and how ?

By finishing the route and following the GPX tracks provided a few hours before departure. Like a Gladiator who wins all his battles and who gains his freedom, you will have to win yours in the face of your extraordinary course and cross the finish line without having strayed from the planned route. You will then be able to brandish your wooden sword, symbol of freedom: the RADIUS! (only for Full 2027 version). A personalized finisher medal will be offered to finishers of the 2024-25-26 editions. Participating means validating one of the three tests of the [radius challenge]

It is above all an Adventure and a personal challenge in total autonomy. The objective is to complete the event by following a GPX track provided. The MercantourMan is above all a mountain experience that takes you out of the traditional competitive framework of Triathlon. Taking up the MercantourMan challenge means wanting to complete a demanding mountain route in total autonomy.

The MercantourMan is above all a challenge, a form of independent triathletic mountain travel. We are the opposite of marketing events and everything that gravitates. We are not mass, we have a spirit above all.

The MercantourMan will be secure thanks to the geolocation service that we will make available to you in order to know the exact location of your progress. You must respect the highway code throughout your journey. No flagger will be present at the intersections you encounter. You must respect the highway code and be attentive at intersections. You are independent and you will follow a GPS track by bike and by trail running. No refreshment zone will be set up on your routes, you must be self-sufficient.

The test will be materialized at a minimum. No sound system will be installed on the sites (Departure, T1, T2 and arrival). You are going to start a Triathlon which above all invites travel and introspection. It is your journey that you will remember and which will mark you for life.

To claim to participate in the Mercantourman 2024 - 2025 - 2026 :

Registrations are open to all, there is no selection.

Being a finisher of the Full Mercantourman edition 2024 or 2025 or 2026 will allow you to be automatically selected to participate in the 2027 edition if you request it: the Complete Crossing of the Mediterranean in Embrun.

To claim to participate in Mercantourman 2027 :

There is a selection if you have not finished one of the 2024-25-26 editions:

1/ We must ensure that we rigorously select each candidate.

The selection is made on several criteria.

Anyone can apply to highlight their experience and sporting CV. We obviously want triathletes who have experience in endurance sports in general.

HIGHLIGHT YOUR EXPERIENCE THAT WILL LEAD US TO SELECT YOU:

- ultra trail, trail, your solo adventures.
- triathlon, ironman, xtrem ironman and others.
- raid adventures.
- your solo trips and holidays.
- your ability to face the unexpected.

HIGHLIGHT YOUR MOTIVATION :

- Explain to us why you would like to realize this MERCANTOURMAN project?

What is important to us is that you can justify and detail your experience as precisely as possible. Our team will be in charge of individually checking each application. Don't think that you are not physically strong enough, there is also the mental side which refers to the next point 2.

2/ The selection will also focus on the mental aspect. We want triathletes who know what they are getting into by starting one of our adventures in total autonomy, without assistance, and in a high mountain context. We want to make sure that each triathlete will start in full knowledge of this facts and will be able to face of a situation of potential danger throughout his adventure. Our selection is therefore also and especially based on your experience in dealing with different situations that are more or less urgent and/or dangerous for your safety and/or for other participants.

3/ We also want a state of mind in accordance with our values and the idea we have of Adventure in ultra-cycling or in Triathlon : Nature, landscape, escape, discovery, unexpected, introspection, physical adventure, total autonomy, challenge.

Triathletes who expect a red carpet, a sound system, a speaker and a crazy atmosphere : we invite you to make an appointment with THE MERCANTOURMAN later, because you are not ready. Apply to participate in MERCANTOURMAN is to love meeting with other adventurer enthusiasts in search of travel, extreme sporting challenge, quest on themselves, in search of the most beautiful landscapes, it is to love adapting his bike equipment to the adventure that you are going to live.

4 / It's finally and above all an exceptional sportive challenge to win your freedom by brandishing your Gladiator sword : the RADIUS. This will require you to entirely complete your GPX track.

We wish you to cross the finish line with a new eye from the experience you will have lived in our mountains. We hope that you will feel the heart of the Earth, that you will feel alive in the heart of this nature and in your physical effort.

You will (perhaps) cross this finish line but as in no other event, you will become someone else thanks to a different global vision.

CHALLENGE YOURSELF WITH THE RADIUS CHALLENGE :

Because you know that the Team Baroudeur likes to propose exceptional challenges in the mountains that are already recognized as the most difficult in Europe, we decided this year to create the RADIUS CHALLENGE.

This challenge represents the culmination of our passion for extreme sports through the events we have developed over the past six years.

We propose to mix the three main disciplines of our organization:

- the road bike.
- the mtb.
- the triathlon.

This challenge has the particularity of being able to be done over several years, without any time limit. This challenge will highlight profiles of complete and unique athletes in extreme ultra-endurance sports in the mountains.

The goal is to win your freedom on the main distances of our three following universes:

- TransAlpes 2850K [road]
- Augustus 1000K [mtb]
- Mercantourman XTREM 2027 edition [triathlon]

The Gladiators who already have one of these three adventures on their list can join the challenge at any time.

Once your three rudiis come together, you will win the challenge and a GOLDEN RUDIUS that will symbolize the realization of the complete ultra-enduring athlete that you have become.

DESCRIPTION OF THE ADVENTURES AND TRANSITIONS AREAS :

The Mercantourman 2025 [edition n°6] is a unique event in the form of an Adventure triathlon which takes place in total autonomy, without assistance, in low, medium and high mountains. This adventure crosses some of the most beautiful landscapes in Europe. It has the particularity of being able to be done on a road bike or on gravel, as desired.

Live tracking - geolocation monitoring will be put in place. Everyone will be equipped with a GPS beacon to make the adventure safe.

GPX tracks of the routes will be sent to participants in mid-September. The tracks will not be sent beforehand to allow us to have time to do our reconnaissance and also to keep you in the theme of adventure and discovery. We want to prevent you from recognizing the routes.

- 7 / Arrival: PEILLE VILLAGE

IMPORTANT: If you have to leave the track for a valid reason, it is authorized but you will have to resume your route where you left off or you will not be able to win your rudiis.

EQUIPMENT ADVICES :

On the gravel crossing, we recommend you tubeless tyres from 43mm section. The MTB is allowed and will offer you more comfort on the wils parts. No problem of crossing for both bikes, it is a question of choice & comfort.
For road and gravel, the important thing is to equip your bike with the most flexible ratio gear possible:

- road : 33-34 x 12 - 36
- gravel : 32 x 12 - 42

Don't forget that you need to save yourself as much as possible so you can ride with a loaded bike and an organism that at the end of the adventure will make you feel very tired. You have a big trail running part after the bike part.
In trail running, as we have said, sticks are allowed.

WELCOME OF TRIATHLETES :

The challenge is to create your 2025 road or gravel MercantourMan in less than 24 hours. Nevertheless, we will be present in the village of Peille until Sunday 06/16 at 11 a.m. to welcome the Triathletes who wish to take advantage of the place and make the pleasure last. Remember that for the initial Full Crossing in 2027, the challenge is to complete the road crossing in less than 24 hours and in less than 41 hours on gravel. We are therefore even more in the notions of travel and pleasure for the 2025 edition.

GOOD TO KNOW ON YOUR GPS :

- 1/ To don't start stressed or have unpleasant surprises, check the tracks and your GPS several days **before** the start !
- 2/ Riders who are equipped with a GPS etrex must ensure that they have the entire GPX track. There are often bugs because files are too heavy on these types of GPS. You have to rework the GPX track sent to you and shorten it if necessary. For the etrex, the trackGPX should generally not exceed 80K.
- 3 / Cyclist timer and watches only accept GPX format. You will receive tracks for your phone by KML format.

They must own a car. It will be composed from 1 to 3 people responsible for the safety of its athlete(s), and their liquid and solid refueling only at the start, at T1 and T2 transition areas and at the finish.

It is totally excluded that the Staff Assistance team can provide physical assistance to its athlete that could improve its performance. Example: pushing or pulling your athlete on the bike and during the trail running, feeding your athlete during one of the crossings.

No assistance can be given to the triathlete under penalty of disqualification.

In case of mechanical problems on the bike part, the Staff team cannot help. The triathlete must remain in complete autonomy and must provide the necessary tools for his adventure.

The Staff Assistance team has for mission of/ is authorized to:

- secure the triathlete in the authorized areas: start and finish areas + transition areas.
- follow the triathlete at a respectable distance on the bike part to ensure its safety and collect + post photos and/or videos on live social networks. The Staff Assistance team must, of course, respect the rules of the road and take care not to disturb cyclists and motorists. We remind you that the event takes place in open roads so you must all respect the rules of the road.
- collect the personal effects of the triathlete on the starting areas, T1 and T2 transitions (suit, glasses, buoy, bike, helmet, shoes, etc.) and at the finish. The organization will not be responsible for any loss of equipment.
- Manage the MEDIA REPORT on social networks: photos, video, various post.

SUPPLY

The Triathlon will take place with total autonomy for the participants. They will have to evolve with their own supply reserve during the 3 disciplines, particularly in cycling and running. Purchases of food in various shops on the bike section are authorized by participants.

SOME SAFETY RULES IN THE MOUNTAINS :

- the ideal is to go back down if you have the opportunity while waiting for the storm to pass. Avoid highs places.

- Stay away from your bike.

RESPECT FOR THE ENVIRONMENT :

It goes without saying that you should not throw anything on your way. No packaging of any kind should be intentionally or inadvertently throw. We are counting on you to leave a blank trace of your passage. You are Baroudeurs so if you take the start, it is because you share our values.

GPS LIVETRACKING THANKS TO A SPECIALISED COMPANY :

The organization and your family & friends will be able to follow you with a GPS livetracking that will allow us to geolocate you. You will be equipped with a GPS box that will be active throughout your adventure. We will know your location in real time and know the exact history of your adventure.

This system helps ensure safety for all adventures.

If you scratch, and if you decide to go home directly, the GPS must be returned to us within 48 hours. The live tracking company needs it for its upcoming events. If you delay, the tracking company will collect your deposit.

The "spot" GPS are not compatible, we cannot accept your personal GPS.

AUTONOMY AND WITH NO EXTERNAL ASSISTANCE, WHAT DOES IT MEAN ?

1/ Total management of your food and drink.

2/ no refuelling on the roadside thanks to Staff Team, family, friends or other.

3/ you can stop in shops, restaurants, hotels to refuel and have some rest.

4/ nothing should be organized with the help of your entourage.

5/ you must be autonome in case of mechanical problem (punctures, chain break, fall)

6/ you must manage your GPS track.

7/ you have to manage your safety, your sleep.

IF YOU SCRATCH :

You will need to report it to the organization and notify them your scratch. You will have to return to your home or to the finish by your own way, the organisation won't repatriate you. You are and remain autonomous. Just remember to send back the GPS to us within 48 hours, beyond this delay, the livetracking company will collect your deposit.

PENALTIES :

If a violation of the rules, the track, the ethics or the security is found during your adventure, the organization reserves the right to exclude you.
